Homayoun Sanatgar et al.

Application No.: 10/601,110

Allowed: November 15, 2010

Filed: June 23, 2003

Art Unit: 3632

For: METAL TUBE SUPPORT BRACKET

Examiner: A. M. King

TRANSMITTAL OF DRAWING CORRECTION

MS Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Submitted herewith is one set (two sheets, eight figures) of corrected drawings for filing in the above-identified patent application.

The Examiner objected to the drawings for reasons stated in the Notice to File Corrected Application Papers dated January 3, 2011 (attached as requested). Specifically, a check mark is made on the item stating "The drawing is marred by black smudges, obliterations, or fax/copier marks (for example, speckles or dots in a substantial portion of the drawing). FIG(s) 1-7B." The enclosed new drawings correct these informalities.

In addition, on FIG. 1, the double arrow line indicated by W_1 has been amended by rotating it so that it is now orthogonal to the sides of bracket 22. In the original FIG. 1, the double arrow line indicated by W_1 was skewed from the width of bracket 22. Support for this amendment can be found at least in paragraph [0029] of the publication of this application (US 2004-0256528 A1) or page 6, line 21 of the original specification which states "bracket 22 has a generally uniform width, W_1 ." No new matter has been added.

Favorable consideration of the enclosed drawings is respectfully requested.

Dated: February 1, 2011

Respectfully submitted,

By /David A. Randall/
